PPiTG CERTIFIED TRAINING, PARTS & SERVICE

PREVENTATIVE MAINTENANCE AUDITS

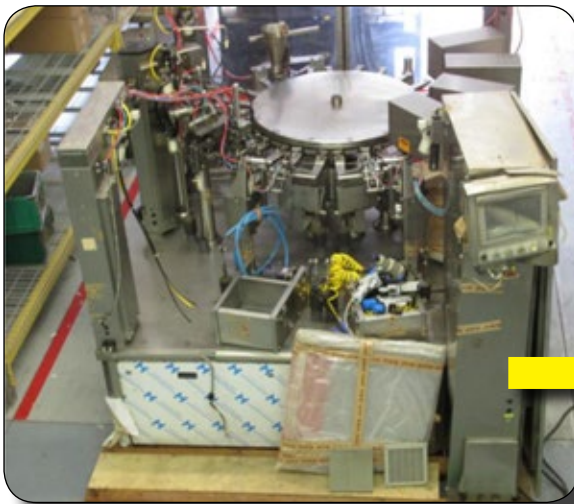

A **PPi Technologies GROUP** Certified Technician visits your facility for a detailed audit of the mechanical and electrical systems on your packaging machinery. Inspection systems are calibrated, re-certified and software is updated. A detailed report is generated covering all aspects of this audit, including items repaired or changed during the audit, and items that require immediate or potential future attention to ensure the long term operation of your **PPiTG** supplied packaging machinery and inspection systems.

MACHINE REBUILD

Our Senior Technician visits your facility for a detailed analytical audit of the mechanical and electrical systems of your machine. We can rebuild on site, or if a major overhaul is needed, your machine can be shipped to our facility in Sarasota FL where it is fully disassembled and restored to extend the operational longevity of the machine. **PPi Technologies GROUP** supply a "NEW Machine warranty" for all machines returned to the **PPiTG** facility for refurbishment!!

Please contact your PPiTG Customer Service Representative to enquire as to preventative maintenance and machine rebuild opportunities. Your CSR may be reached at: **PPiTG** Main Telephone Line – 941-359-6678 • email: CSR@ppitechnologies.com
